

2008-2009 Chevrolet Impala CNG

News: 07-06-09

New: EPA Certification granted on gm engine family 9gmxt03.9052 and 9gmxt03.9051 my2009 impala sedan or with police package 9c1,9c3.

This has been a long time in the works, with the enormous amount of engineering time in our design, we are setting a new standard in this industry for alternative fuel retro-fits. From using coolant-less Regulators to Type 3 cylinders, Aluminum/Stainless Steel/ Kevlar brackets, this is the highest tech vehicle retro-fit that has ever been made available!

The compressed natural gas Chevy Impala by AFVTech by license to Natural Drive Partners LLC, is the right choice for your taxi, state or personal fleet. It's dependable, efficient and good looking. This is the first CNG vehicle to achieve over 380 miles between fill-ups on the highway, download the product brochure for more information!
